ORDER A 10 HOUR DAY

Strike Is Called.

Chicago, May 28.-Anxious to spread the strike of machinists, the Chicago Metal Trades association today directed the posting of notices in all shops to the effect that all the men will be put

on a ten-hour work day after May 31. The notice served the purpose for which it was issued, and the officers of the Machinists' union tonight issued an order to all its members to quit work on Tuesday at the conclusion of a day of nine hours. About 2,500 machinists will be involved in the strike and their idleness will throw about 1,000 other men out of

The action taken today by the employers was intended to checkmate the union, which was intending to call strikes in the shops at the rate of one or two each week. The employers desired a fight all along the line, and the notices today were posted with the express purpose of forcing the men to make a general fight instead of confining it to a flew shops at a time.

Question of Separation Will Come Up in January.

The measure further abolishes the conordant, suppresses the French embassy at the vatican, and makes detailed provision for the disposal of the govern-
